WIPERblades BETTER SIGHT

WIPERblade BETTER Sight

Streak-free cleaning
Clean, clear results improve road visibility

Silent working
Suppresses squeaks and judder, even in heavy rain

No tools required
Easy to install with no tools required

Premium Universal Wiper Blades for Streak-Free Windscreen Clarity

Meet the ultimate all-weather WIPERblade BETTER SIGHT Conventional Wiper Blades from OSRAM designed to keep your windscreen clear, quiet and streak-free in every season. Each blade features third-generation Nano-Tech composite rubber, which stays flexible from freezing mornings to scorching afternoons, delivering a crisp, even wipe that leaves no trace behind. A high-carbon steel flexor inlay hugs curved glass, applying consistent pressure across the entire sweep, for uniform clarity on every pass. The full stainless-steel frame is vented and finished with an integrated spoiler that cuts through oncoming airflow, preventing wind lift and damping noise for whisper-quiet performance even at motorway speeds. Installation is equally refined: OSRAM's multi-fit universal clip snaps onto the five most common wiper-arm types without tools,
