3000 Kelvin & Warm White Light Color

For an authentic look

Constant Brightness Technology

Consistent, reliable light output even with fluctuating and low battery voltage

Modern technology for timeless classics. An iconic development in the retrofitting lamp sector – now also for classic & vintage cars and fans of the traditional warm white color temperature.

With the street legal[1)] NIGHT BREAKER LED VINTAGE H1, OSRAM brings cutting-edge LED technology to the world of vintage vehicles, combining modern performance and technology with timeless style. It not only illuminates the road in front of you but also makes the character of your vehicle shine in new brilliance. With its warm white color temperature of up to 3000 Kelvin, this street-legal[1)] LED lamp not only creates the characteristic light color of an incandescent lamp and a nostalgic glow that stays true to the character of classic cars but also impresses with its superior brightness[2)], while the glare of other road users falls below the permissible maximum values by up to 50%[2)]. It blends seamlessly with the overall appearance and aesthetic of vintage vehicles, combining an authentic look with safety, vision and visibility. The integrated “Constant-Brightness” technology ensures consistent, reliable light output even with fluctuating and low battery voltage - for impressive performance and consistent brightness and for a carefree feeling on every ride. Thanks to the premium OSRAM quality, the lamp is not only robust and vibration-resistant, efficient and durable, but also impresses with a service life that is up to six times longer than that of conventional halogen lamps. [3)] In addition, it does not emit any UV radiation and therefore the reflector and lens of the original headlamp can remain undamaged. The NIGHT
